Kathryn Slater-Carter, *Secretary*  
Bill Huber, *Treasurer*  
Jim Harvey, *Director*

### The Mission of Montara Water and Sanitary District

To sensitively manage the natural resources entrusted to our care, to provide the people of Montara and Moss Beach with reliable, high-quality water, wastewater, and trash disposal services at an equitable price, and to ensure the fiscal and environmental vitality of the district for future generations.

### District Overview

The Montara Water & Sanitary District, formed in 1958 as a public agency, is responsible for maintaining approximately twenty-five miles of sewer line and thirteen pump stations. The District is a member of the JPA, Sewer Authority-Mid Coastside (SAM), which operates the sewage treatment plant and inter-tie pipeline connecting the member agencies.

In addition, the District manages a solid waste franchise with Recology of the Coast which collects all trash and disposes of it properly, as well as recycles the material placed in the recycling bins by each household.

Through special State legislation, was granted the powers of a county water district. This was done in an effort to improve the water supply and service provided by the private water company serving the area. On August 5, 2003, the district acquired, and began operating, the water system to serve the unincorporated areas of Montara and Moss Beach. Since then the District has successfully improved water quality and source reliability.

### Fiscal year 2017-18 Accomplishments

1. Successful transition of the District's Clerk and Account Specialist positions
2. Successfully integration of the Well Conversion program
3. Successful Financial Audit and Single Audit
  - a. No note of material weaknesses or significant deficiencies in the Financial Statement Audit

# **Fiscal Year 2018-2019**

## **Budget Executive Summary**

### **Fiscal Year 2018-19 Budget Overview**

This budget continues the District's tradition of meeting all regulatory requirements in planning, designing, operating, and maintaining its facilities. We also continue a tradition of fiscal responsibility, recognizing the cost of District services impacts the community, balanced with the need to maintain prudent reserves to sustain our capital assets. With the resources provided in this budget, the District can continue to focus on customers, work in an environmentally friendly manner, establish and maintain partnerships with other organizations, and foster a positive environment for employees.

Projections used in this budget are the result of multiple levels of review by management, staff, finance committee and the Board of Directors. Cost increases have been limited as much as possible to essential projects or services. As shown in the following Budgeted Cash Flow for both Sewer and Water, the budget presents a projection of revenues by funding source, operating expenses, debt service costs and capital expenditures planned for fiscal year 2018-19. Capital project cost estimates are based on the Capital Improvement Program (CIP) and related water master plan.

### **Fiscal year 2018-19 Challenges**

On the sewer side major challenges for FY 2018-19 budget are significantly increased SAM operations, and legal cost related to the HMB vs. SAM, GCSD and MWSD lawsuit that are offset by this year's 21% rate increase and future increases. MWSD will also implement a total of \$3.87 million in long planned capital sewer projects. Reserve funds have been earmarked in prior years to pay for the improvements.

The most notable change in this year's water budget is the addition of a fourth water systems operator. Constant increases in regulations and number of facilities operated by MWSD over the past decades require this additional full-time position.

# Fiscal Year 2018-2019

## Budget Executive Summary

### **Sewer Enterprise:**

#### **Sewer service charge:**

The District is proposing to adopt sewer rate increases for the next two fiscal years as shown on the table below. Residential sewer service charges are calculated based on annualized water use from four wet-weather months (November - February or December - March depending on water billing cycle), a period of minimal outdoor irrigation. Commercial sewer service charges vary based on customer class and wastewater strength and are applied based on annual water use.

| PROPOSED SEWER RATES              |                                   |                          |                        |
|-----------------------------------|-----------------------------------|--------------------------|------------------------|
|                                   | Current<br>Sewer Rates*           | Proposed Rates Effective |                        |
|                                   |                                   | July 1, 2018             | July 1, 2019           |
| <b>Sewer Service Charge Rates</b> | Equivalent<br><u>rate per hcf</u> | Rate<br><u>per hcf</u>   | Rate<br><u>per hcf</u> |

# Fiscal Year 2018-2019

## Budget Executive Summary

### Sewer Authority Mid-Coastside:

The major factors impacting the Sewer enterprise are the overall costs of being a part of the SAM JPA. The SAM budget is comprised of two separate assessments:

1. Operations & Maintenance, which includes a capital infrastructure component
2. Collection Services

Please note; the district approved the fiscal year 2017-18 budget using SAM's preliminary budget figures. These amounts were subsequently amended.

Current year differences as compared to last fiscal year are as follows:

|                          | FY 2017-18      | FY 2018-19      |               |              |
|--------------------------|-----------------|-----------------|---------------|--------------|
|                          | Proposed Budget | Proposed Budget | \$ (Decrease) | % (Decrease) |
| Operations & Maintenance | \$ 1,259,320    | \$ 1,249,147    | \$ (10,173)   | -0.81%       |
| Collection Services      | \$ 285,934      | \$ 328,036      | \$ 42,102     | 14.72%       |
|                          | \$ 1,545,254    | \$ 1,577,183    |               |              |

### Labor:

The Sewer Enterprise has two full time equivalents that are paid through Sewer operations. Overall, benefits and labor in comparison to fiscal year 2017-18 are budgeted to increase \$9,010 or 2.94%. This fiscal year includes a 2.83% cost of living increase as well as a 2.5% merit increase.

### Connection Fees:

Revenue from new residential construction has been budgeted flat. For fiscal year 2017-18 the District has issued eight new connections. Based on the unexpected nature of new connection issuances, the District is remaining conservative and budgeting for a total of six new connections issued for fiscal year 2018-19. The revenue from these connections is used for MWSD capital expenditures.

### Capital Improvement:

Fiscal year 2017-18 Sewer CIP budget was set at \$1,640,000. The planned high priority projects included the Cabrillo Highway Phase 1 A & B sewer main replacement as well as other mechanical system repairs & replacements that were deemed to be high priority. A number of issues have plagued the ability to proceed on a number of these planned projects. Through April 2018, Sewer CIP is 13.26% through its total budget for a total of \$217,522 in capital costs.

Fiscal year 2018-2019 budget model currently includes the majority of these high priority projects as well as others. As discussed above, the majority of the planned projects that were to take place in fiscal 17-18 have not seen significant progress. For this reason, the budget set for fiscal year 2018-19 is \$3,640,000. The District expects to have to use a good portion of reserves to fund these projects which have been in the works for many years. Please refer to the capital reserve section of the budget for a more in depth analysis of the current reserve levels.

# Fiscal Year 2018-2019

## Budget Executive Summary

### **Water Enterprise:**

#### **Water Sales:**

In fiscal year 2014-2015 the District's Water enterprise went through a comprehensive Rate Study prepared by Bartle Wells. The rate study was the culmination of many months of work. Bartle Wells drafted various financial models in order to decide the long term rate structure for the District. The specific assumptions made included the *cost escalation factor*, *Interest earnings rate*, *growth in customer base*, and *price elasticity*. These assumptions are used in order to account for the known cost drivers. The largest portion being the Water enterprise's debt service responsibilities for the next 10-15 years and the District's long term capital improvement program set forth by the District's master plan. After careful consideration of three proposed financial models put in place by Bartle Wells, the decision of a 3% water rate increase and 10 new connections per year was deemed appropriate.

Whereas the Bartle Wells model is used as a guide for the increase in water rates, it is not used to budget revenue collected, as water consumption is an inexact science. For fiscal year 2018-19, water rates have been budgeted for a 3% rate increase, however, due to negative consumption expectations, revenue has been budgeted flat.

#### **Labor:**

The District has 5 full time equivalents that are paid through Water operations. Overall, benefits and labor in comparison to fiscal year 2017-18 are budgeted to increase \$103,312 or 13.43%. This fiscal year includes a 2.83% cost of living increase as well as a 2.5% merit increase. The District also intends to recruit the services of a fourth water operator. The addition of the fourth operator is designed to cut down on over-time as well as on-call responsibilities over the next two to three fiscal years.

#### **Connection Fees:**

Connection fee revenue for new construction has been budgeted flat at \$252,020 with the estimate that ten connections will be issued in fiscal year 2018-19. Thus far through April the District has issued eight new construction connections. The District is aware that the possibility of many more connections being issued related to the Big Wave project. However, with the current uncertainty regarding the project, it would not be prudent to include the additional revenue for fiscal year 2018-19.

#### **Capital Improvement:**

The projected current year CIP budget of \$481,000 is a decrease of \$232,500 or 32.59%. This decrease was to be expected as the District is back to continually maintaining and improving the current system through the traditional sense of replacing water main, laterals, and meters. The Pillar Ridge Rehab project is currently on-going and is expected to continue for the next three to five years.

# **Fiscal Year 2018-2019**

## **Budget Executive Summary**

### **Conclusion:**

The District strives to keep its rate increases and overall costs as low as possible while meeting or exceeding regulatory standards. This goal and focus is becoming tougher and tougher with rising costs and the constant requirement of maintaining the District's aging infrastructure.

The District continues to strive toward excellence while providing high levels of customer service as well as maintaining a focus on environmental stewardship.
